

Child and Adolescent Consultant Psychiatrist (Arabic Speaker), Dubai, UAE

We are seeking an experienced Arabic-speaking Consultant Child & Adolescent Psychiatrist to join a leading and rapidly expanding hospital network in Dubai with ambitions to evolve into a recognised research-led centre of excellence.

The Ideal Consultant:

Native or fluent Arabic speaker

Extensive experience at Consultant level

Academic background (Professorship / University affiliation desirable)

Fellowship trained with a strong publication & conference portfolio

Ambitious, motivated to build, lead, and shape services

Commercially aware and confident in developing a patient following

This is a rare opportunity for a Consultant who wants to build their brand, contribute academically, and play a strategic role in growing a regional mental health service.

The Package:

Accommodation provided – Generous 4-bed villa

Schooling allowance

Relocation support + annual return flights

Highly competitive tax-free salary

Platform to develop subspecialty clinics & research

Dubai offers scale, ambition, and investment in modern healthcare; this role reflects the ambitions of the hospital.

If you are an established CAMHS leader ready to combine clinical excellence, academia, and growth, I would welcome a confidential conversation.
