

Consultant Breast Radiologist, Dubai, UAE

Our client, a leading healthcare provider in Dubai, is seeking a highly skilled and experienced Breast Imaging Radiologist to join their radiology department. The successful candidate will provide comprehensive breast imaging services, ensuring accurate diagnostics and high-quality patient care in accordance with UAE healthcare regulations and international best practices.

Package on Offer:

Accommodation provided – Generous 4-bed villa
Schooling allowance
Relocation support + annual return flights
Highly competitive tax-free salary
Platform to develop subspecialty clinics & research

Clinical Responsibilities:

Interpret and report breast imaging studies, including:
Digital Mammography (2D & 3D Tomosynthesis)
Breast Ultrasound
Breast MRI
Screening and diagnostic mammograms
Perform image-guided interventional procedures, including:
Ultrasound-guided core biopsies
Stereotactic biopsies
MRI-guided biopsies
Fine Needle Aspiration (FNA)
Wire localisation procedures
Correlate imaging findings with clinical and histopathological results.
Participate in multidisciplinary breast tumor board meetings.
Provide second opinions when required.

Regulatory & Quality Compliance:

Ensure adherence to regulatory standards set by the Dubai Health Authority (DHA) and other relevant UAE authorities.
Maintain high standards of reporting accuracy and turnaround time.
Participate in quality assurance initiatives and clinical audits.
Comply with radiation safety and infection control policies.

Patient & Team Collaboration

Communicate findings clearly and compassionately to patients.
Obtain informed consent prior to procedures.
Work collaboratively with surgeons, oncologists, pathologists, and referring physicians.

Administrative & Academic Duties

Maintain accurate documentation within electronic medical record systems.
Supervise and support radiographers and junior staff as required.
Participate in Continuing Medical Education (CME) activities.

Contribute to teaching and research initiatives where applicable.

Qualifications & Requirements

Medical Degree (MBBS or equivalent).

Completion of an accredited Radiology Residency program.

Fellowship training in Breast Imaging (preferred).

Certification & Licensing

Board Certification in Radiology (e.g., American Board, FRCR, European Board, or equivalent).

Eligibility for or active medical license with the Dubai Health Authority (DHA).

Experience

Minimum 3–5 years of post-board experience in breast imaging.

Experience in a high-volume breast imaging centre preferred.

Proficiency in advanced breast imaging modalities including tomosynthesis and MRI.
