

Consultant Interventional Cardiologist, Dubai, the UAE

Location: Dubai

Salary: €16000 - €22000 per month + Incentives, Flights, Healthcare

We are seeking a Consultant Interventional Cardiologist to join a leading healthcare organisation in the UAE (Dubai). We're seeking a cardiology professional who will deliver high-quality patient care across inpatient, outpatient, and acute care settings while upholding the highest standards of clinical governance and patient safety.

Key Responsibilities:

Diagnose and manage a broad range of cardiovascular conditions

Perform interventional cardiology procedures, including coronary angiography and percutaneous coronary interventions (PCI)

Manage inpatient and outpatient cardiology services

Participate in acute and emergency cardiac care as required

Work collaboratively within a multidisciplinary team to deliver excellent patient outcomes

Maintain accurate clinical documentation and ensure compliance with clinical governance standards

Participate in quality improvement initiatives, audits, and continuous professional development

Provide mentorship and support to junior medical staff

Requirements:

Medical degree and specialist qualification in Cardiology with Interventional Cardiology training

Eligibility for specialist registration with the relevant UAE healthcare authority

Minimum 5 years' Consultant-level experience

At least 1 year of Consultant experience in a Tier 1 country recognised by the UAE healthcare regulator

Current BLS and ACLS certification

Excellent clinical, communication, and leadership skills

Benefits:

Competitive tax-free salary package

Medical insurance and annual Flights

Relocation support

CME and professional development opportunities

Opportunity to work within a modern, internationally recognised healthcare environment
