

Consultant Obstetrician and/or Gynaecologist (Russian speaking), Dubai, the UAE

On behalf of a leading private hospital in Dubai, we are seeking a consultant obstetrician and/or gynaecologist for a contract of at least 12 months, with the possibility of extension.

About the role:

As a consultant obstetrician and gynaecologist, you will work across both obstetrics and gynaecology in a modern private hospital environment. Your responsibilities will include antenatal care, labor and delivery, gynaecologic consultations, and surgical procedures.

We are particularly interested in candidates with strong obstetric experience and a robust surgical background. The hospital places a strong emphasis on patient safety, quality of care, and patient experience.

Typical responsibilities:

- Antenatal, intrapartum, and postnatal care
- Management of routine and high-risk pregnancies
- Management of normal and complex deliveries
- Diagnosis and treatment of gynaecologic conditions
- Outpatient consultations in obstetrics and gynaecology
- Gynaecologic surgical procedures
- Assessment and management of acute obstetric and gynaecologic cases
- Collaboration with multidisciplinary teams and healthcare professionals
- Contributing to high levels of patient satisfaction and quality of care

We are looking for someone who:

- Is a specialist in obstetrics and/or gynaecology
- Has a minimum of three years of experience at consultant level following specialist qualification
- Has strong clinical experience in obstetrics
- Has broad surgical experience and can provide a comprehensive surgical logbook demonstrating procedural competency
- Is female, as this is a requirement specified by the employer
- Has excellent English and Russian communication skills
- Communicates confidently with patients and colleagues

We offer:

- A contract of at least 12 months, with the possibility of extension
- The opportunity to gain international experience in an English-speaking healthcare environment
- A position at a leading international private hospital in Dubai
- A highly international patient population, including European and VIP patients

Modern facilities and strong specialist departments
Tax-free salary and attractive bonus opportunities
Full support with licensing and relocation
Employer-funded licensing process managed by a dedicated licensing team
Professional indemnity insurance covered by the employer
Health insurance for both the physician and their family

Salary and benefits:

AED 70'000 - 90'000 per month, equivalent to approximately €200,000–257,000 per year, with the possibility of tax-free income.

In addition, consultants receive commission on procedures performed, providing significant additional earning potential.
