

## **Consultant Old Age Psychiatrist, Ireland**

*Location:* Dublin

*Salary:* €233527 - €280513 p/a

We are seeking experienced and motivated Consultant Psychiatrists in Old Age Psychiatry to work across a range of public and private mental health services throughout Ireland.

### *Role Overview:*

The post involves providing specialist psychiatric assessment, diagnosis, and treatment for older adults with functional and organic mental health disorders. Consultants will work as part of a multidisciplinary team, contributing to service development, clinical governance, teaching, and supervision of junior doctors and allied health professionals.

### *Key Responsibilities:*

- Deliver high quality, patient centred care in Old Age Psychiatry
- Provide leadership within multidisciplinary teams
- Participate in service planning, audit, and quality improvement
- Supervise and support NCHDs and trainees
- Engage with families, carers, and community services

### *Requirements:*

- Specialist registration (or eligibility) in Old Age Psychiatry
- Experience working with older adult mental health services
- Strong communication and leadership skills
- Eligibility to work in Ireland

### *What's on Offer"*

- Specific purpose contracts (12 months)
- Salary of €233,527 to €280,513 per year based on experience
- 30 days of annual leave, 10 days of public holidays and up to 10 days of medical education leave
- Opportunities across community, inpatient, and liaison settings
