

## **Consultant Pain Management Specialist, Abu Dhabi, UAE**

A leading government-affiliated healthcare provider in Abu Dhabi is seeking an experienced Consultant Pain Management Specialist to join its multidisciplinary pain and rehabilitation service. This is an excellent opportunity to work within a highly structured, well-resourced healthcare system, delivering evidence-based pain management in a modern, patient-centred environment.

The role suits a consultant with strong interventional and multidisciplinary pain management experience and a commitment to improving patients' quality of life for acute, chronic, and cancer-related pain.

### *Key Responsibilities:*

Provide consultant-level assessment and management of patients with acute, chronic, and complex pain conditions

Deliver interventional pain procedures within scope of practice, including but not limited to:

Epidural and facet joint injections

Nerve blocks and radiofrequency ablation

Spinal and musculoskeletal pain interventions

Manage cancer-related pain in collaboration with oncology, palliative care, and multidisciplinary teams

Develop and oversee individualised, multimodal pain management plans, including pharmacological and non-pharmacological approaches

Participate in outpatient clinics, inpatient consultations, and procedural lists

Work closely with anaesthetics, orthopaedics, neurology, rehabilitation, physiotherapy, and psychology services

Contribute to service development, clinical governance, audit, and quality improvement initiatives

Participate in on-call duties as per departmental rota (if applicable)

Ensure compliance with local regulatory, ethical, and clinical governance standards

### *Essential Requirements:*

Board-certified / specialist-registered Consultant Pain Management Specialist

Background in Anaesthesiology, Pain Medicine, or related speciality with recognised subspecialty training in Pain Management

Eligibility for Department of Health – Abu Dhabi (DoH) Consultant licensure

Minimum 3 years post-specialist / consultant-level experience in pain management

Proven experience in interventional pain procedures

Strong multidisciplinary and patient-centred approach to care

Excellent communication, interpersonal, and teamwork skills

High standards of professionalism, ethics, and clinical governance

### *What's on Offer:*

70K-90K AED monthly

Annual return flight to the home country

Full relocation support, including visa sponsorship and onboarding assistance

Opportunity to work in one of the Middle East's most advanced healthcare networks

*To Apply:*
