

## **Dermatologist, Belgium**

Our client is situated in East Flanders, Belgium, which is renowned for providing high-quality, affordable, and accessible insured care. This clinic offers a wide range of medical specialties. The approach from the team is natural and focused on enhancing each individual's best qualities, using all available techniques to achieve the most beautiful result.

As a dermatologist at these clinics, your primary focus will be on classical dermatology, utilising government-insured care rates. While aesthetic dermatology services may be offered with the consent of the clinic's management, it will not be the main area of focus.

The dermatologists perform a variety of treatments, including laser and light therapy, minor surgery, virology, and sexually transmitted diseases. They have particular expertise in hair care, including the treatment of hair diseases and hair transplantation. Additionally, they can provide treatment for sun and liver spots as well as skin cancer.

### ***This is you:***

You have a specialist degree in dermatology recognised by the EU/EEA.

You have a permanent work permit or EU/EEA citizenship.

You have a professional level of English proficiency.
