

## **Dialysis Nurse, Sweden**

Dialysis Unit, Östra Hospital - Sahlgrenska University Hospital, Gothenburg  
We are seeking 1 nurse to our dialysis unit at Östra Hospital, part of Sahlgrenska University Hospital. We prefer candidates with experience from dialysis units or acute care.

### *We offer:*

Free visit to meet your future workplace;  
Free Swedish language training with monthly scholarship;  
Complete relocation support.

### *Our support:*

We find you housing;  
School/kindergarten registration;  
Personal contact person;  
Help with all practical matters.

### *What we look for:*

Registered nurse (RN) with Swedish license;  
C1 level Swedish language – after finalised language course;  
Preferably experience from dialysis or acute care.

Employment: Permanent, full-time (100%)

Schedule: Day and evening shifts, every 4th weekend, approx. 1 evening/week

Start: As soon as possible

### *Your role and responsibilities:*

Clinical work:  
Hemodialysis treatment of chronic and acute patients  
Working with medical technology and nursing care  
Building long-term relationships with patients  
Person-centred care approach  
Supporting patients' self-care abilities

### *Work environment:*

Highly specialised outpatient clinic with 16 treatment stations  
Teamwork with nurses and assistant nurses  
8-week comprehensive introduction with experienced supervisor  
Continued mentorship after introduction  
Stimulating work environment combining technology and care
