

Mammography Radiologist, Norway

Location: Buskerud, Norway

Would you like to be a key player in performing clinical breast diagnostics and mammography screening?

On behalf of a hospital approximately 30 minutes from Oslo, we are seeking a specialist in mammo radiology.

The position involves investigation of diseases in the breast and thyroid gland, as well as breast diagnostics, including participation in mammography screening programs. You will work in an interdisciplinary team and collaborate closely with mamma endocrine surgeons, oncologists, and pathologists. The hospital's mamma endocrine surgical outpatient clinic is co-located with the radiological outpatient clinic.

The hospital engages in research and is characterised by high professional competence, interdisciplinary environment, and efficient operations. The workplace emphasises joy at work, well-being, and professional development.

Here, you will become part of a solid and ambitious professional environment with varied working days. The hospital emphasises that professional environments should collaborate on patient treatment, exploit technological opportunities, and share knowledge and expertise between different treatment locations.

Through quality, safety, and respect, we work together to provide good and equitable health services to those who need it!

Responsibilities:

Clinical and radiological multimodal breast diagnostics.

Mammography screening (interpretation).

Image-guided sampling.

Participation in Multidisciplinary Team meetings.

Qualifications:

European authorisation as a medical professional.

European certification as a radiologist.

Updated knowledge and solid experience in mammography diagnostics and image-guided sampling.

You need to be able to communicate in one of the Scandinavian languages before you start, if you do not already know any of these, a language course will be offered – free of charge.

Personal qualities:

Good collaboration skills.

Stable work capacity.

Professional commitment.

Good communication skills.

Personal suitability is emphasised.

We offer:

Employment in a large healthcare company that aims to develop and offer healthcare services in new ways.

Exciting and varied tasks with opportunities for professional and personal development.

An innovative and good working environment with skilled and committed colleagues.

Employment in a secure public institution with good pension schemes.

Professional headhunters dedicated to your success.

Free language course done with a private tutor online.

Assistance with relocation, including accommodation, schools, kindergartens, and more.
