

## **Neurophysiologist to Sweden**

A vacancy for a staff specialist/consultant in neurophysiology is open at the clinic of neurology in a public hospital in Sweden.

The department of neurology examines and treats patients with diseases or conditions that affect the brain, the spinal cord and peripheral nerves, as well as some muscle diseases. The most common neurological diagnoses that are treated at the department are stroke, TIA, seizures, epilepsy, MS, Parkinson's disease, migraines, meninges bleeding, neuroborreliosis, polyneuropathy, prolapses in the neck and back, dementia of younger people and tumours of the nervous system. There are guard duties to the position.

### **We offer:**

- Permanent contract.
- Training courses within working hours.
- Help to find: apartment, school and kindergarten.
- Assistance with removal and relocation costs.
- Intensive Norwegian course, also for partner.

### **Requirements:**

Specialist exam in neurophysiology.

Experience as neurophysiologist.

Willingness to learn Swedish language
