

Neurologist, The Netherlands

Your new working environment:

As a neurologist, you will work within a versatile department where you can practice neurology across the full spectrum of the specialty. The department offers modern facilities for diagnostics and treatment, including a well-equipped clinical neurophysiology (KNF) department.

Through close collaboration with academic partners, you will have access to specialized expertise, including neurosurgical support. The organization also has a strong infrastructure for acute neurological care, with excellent support from emergency care specialists.

The neurology department includes inpatient capacity, including specialized beds for patients with neurological conditions such as stroke.

The team:

You will become part of a close-knit team of committed and enthusiastic neurologists. Together, you will provide high-quality care and contribute to a positive and professional working atmosphere.

The medical team is supported by specialized nurse consultants, nurse specialists, physician assistants, and experienced neurology nurses. Thanks to this multidisciplinary approach, patients receive comprehensive and coordinated care.

A workplace where you truly make a difference

This organization stands for personal, accessible, and high-quality healthcare. Employees are given the opportunity to take responsibility, develop their skills, and contribute to the healthcare of the future.

You will work in an environment where colleagues know and support each other. A place where your knowledge, expertise, and dedication are valued, and where you can make a real impact on the lives of patients.

Who are you?

We are looking for a neurologist who:

Is (almost) fully registered as a neurologist

Enjoys practicing neurology across the full breadth of the specialty

Is enthusiastic, socially skilled, and committed

Has a practical mindset and enjoys teamwork
