

## **Paediatric Endocrinologist, Ireland**

*Location:* Limerick

*Salary:* €233527 - €280513 per annum

UHL (Limerick University Hospital) is seeking a highly motivated and skilled Consultant Paediatric Endocrinologist to join our expanding paediatric service in Limerick. This is an excellent opportunity to work within a dynamic, patient-focused team serving children and families across the Mid-West region.

The successful candidate will play a central role in delivering specialist endocrine care, supporting service development, and contributing to the ongoing enhancement of paediatric services within the region.

### *Key Responsibilities:*

Provide expert clinical care for children and adolescents with endocrine and metabolic disorders, including diabetes.

Deliver outpatient clinics, inpatient consultations, and participate in the paediatric on-call rota as required.

Collaborate closely with multidisciplinary colleagues including paediatricians, diabetes nurse specialists, dieticians, psychologists, and allied health professionals.

Engage in service development, audit, and quality improvement initiatives.

Contribute to the teaching and supervision of NCHDs, medical students, and other trainees.

Participate in relevant research opportunities within the UL Hospitals Group and affiliated academic partners.

### *Essential Requirements:*

Completion of specialist training in Paediatrics with recognised subspecialty training in Paediatric Endocrinology.

Registration (or eligibility for Specialist Registration) with the Irish Medical Council (IMC).

Strong clinical expertise in the management of paediatric endocrine conditions.

Excellent communication, teamwork, and organisational skills.

A commitment to high-quality, family-centred care.

### *What We Offer:*

A competitive consultant salary and benefits package in line with HSE guidelines  
€233,000-280,000

Opportunities for continuous professional development, training, and academic collaboration.

A welcoming and supportive multidisciplinary environment.

The chance to contribute to the growth of paediatric specialty services in the Mid-West.
