

Pathologist, Norway

Østfold is a region in Norway known for its natural beauty and proximity to both Oslo and the Swedish border. The area offers a high quality of life with excellent schools, outdoor recreational activities and a welcoming community. Living in Østfold allows you to enjoy the peace of suburban life while still having easy access to Norway's bustling capital.

Responsibilities will include:

Providing diagnostic expertise through the examination of various medical samples.
Collaborating with clinicians and other healthcare professionals to ensure accurate diagnoses and optimal patient care.

Preparing detailed pathology reports and contributing to the development of treatment plans.

Conducting autopsies to determine causes of death when required.

Keeping up-to-date with advancements in pathology and incorporating new diagnostic techniques where relevant.

You will be part of a modern, well-equipped laboratory with access to cutting-edge technology and a supportive multidisciplinary team.

Qualifications:

Specialist certification in pathology from an EU country.

Authorisation to practice as a medical doctor within the EU.

Proficiency in English and motivation to learn Norwegian, supported by our free Norwegian language school.

Experience in laboratory-based pathology work, including microscopy, tissue sample preparation, and molecular diagnostics.

We offer:

A stimulating position in a strong and supportive professional environment

Opportunities for continued education and professional growth

Competitive salary and excellent pension and insurance schemes

Ongoing support from a dedicated recruiter before, during, and after your employment

Assistance with obtaining Norwegian authorisation and specialist approvals, if required

Help with accommodation and travel arrangements, including support for your family, if necessary

Access to a free language course with a private tutor via Teams/Skype
