

Pathologist, Sweden

A leading hospital in southern Sweden is seeking skilled pathologists to join a highly specialised and collaborative environment where expertise and innovation go hand in hand.

About the role:

As a pathologist, you will work within a dynamic and forward-thinking team, focusing on both general pathology and specific subspecialties. Areas of particular interest include:

Dermatopathology and gastrointestinal pathology

Head and neck pathology

Cytology

You will also have the opportunity to contribute to a variety of cases, including digestive, urological, soft tissue and bone, gynaecological, breast and molecular pathology.

The role includes case reporting, grossing, autopsies, and participation in multidisciplinary conferences, where you will collaborate with clinical colleagues to ensure the highest level of diagnostic precision.

This is a unique chance to work in a modern, digitalised pathology department where digital tools and emerging technologies, including AI, play an integral role in daily practice. You will have access to ongoing academic work, including opportunities to participate in research groups, quality improvement projects, and case discussions with peers both on-site and internationally.

Who we're looking for:

Holds an EU-recognised specialist certification in pathology.

Strong expertise in general pathology with a focus on subspecialties such as dermatopathology, gastroenterology, cytology, or head and neck pathology.

An interest in digital pathology and emerging technologies.

Strong communication skills in English and a willingness to learn Swedish.

A collaborative, team-oriented approach with a passion for quality improvement and professional development.

Why Southern Sweden?

Southern Sweden offers a unique balance of city living and access to stunning natural beauty. The region is known for its vibrant cultural life, excellent public services, and international atmosphere, making it an ideal place to settle for professionals and their families. You'll enjoy a high quality of life, clean air, and proximity to beautiful coastlines, lush forests, and outdoor activities year-round.
