

Psychiatrist, Sweden

You will work in an experienced team where collaboration, respect, and professional development are the focus. The work environment is characterised by openness, flexibility, and care — both for patients and for each other. As a psychiatrist, you are responsible for assessment, evaluation, and treatment of patients with various psychiatric diagnoses. The work is conducted in close cooperation with other healthcare professionals.

What we offer:

Permanent positions in adult and child/adolescent psychiatry specialists
Individual salary setting — the starting salary for specialist physicians is SEK 82,500/month before tax (immediately after specialist training, without prior experience)
Free Swedish language training to C1 level with study grant
Complete relocation support: housing, license to practice, integration
Multidisciplinary teams with psychologists, social workers, nurses
Work-life balance: structured schedules, min 25 days vacation

Requirements:

Medical degree from EU/EEA or 3+ years experience in the EU
Specialist in Psychiatry (Adult, Child/Adolescent, or Forensic)

Positions across Sweden in modern psychiatric clinics
