

Radiologist, Denmark

You will work in a highly specialised radiology department in Denmark's public healthcare sector.

The radiology department works with image-guided diagnostic and therapeutic procedures ranging from ultrasound, to magnetic resonance imaging (MRI), computed tomography (CT) scan and X-rays besides many other procedures. As a radiologist, you will work closely together with many other medical specialists from other departments, besides radiographers and with nurses.

Teamwork and patient-oriented perspective is highly appreciated in the department.

Apply now if you are:

Specialised in Radiology, or will finish your residency soon

You have interest or experience in one of the following areas:

Abdominal Radiology with experience in MR of rectum- or prostate cancer
