Rehabilitation Medicine Specialist, Sweden

Are you a specialist in Rehabilitation Medicine looking for a role where you can truly make a difference while enjoying an excellent work-life balance?

We are seeking an experienced rehabilitation medicine specialist to join a modern, multidisciplinary rehabilitation department in one of Sweden's most scenic and welcoming regions. Here, you will work alongside highly skilled colleagues, contribute to life-changing patient outcomes, and enjoy a lifestyle surrounded by nature, fresh air, and short commutes.

About the Role:
As a rehabilitation medicine specialist, you will play a key role in coordinating and guiding the rehabilitation journey of patients with neurological conditions, spinal cord injuries, acquired brain injuries, and chronic pain disorders.

You will work in close collaboration with physicians, physiotherapists, occupational therapists, psychologists, nurses, and social workers, ensuring each patient receives comprehensive and individualized care.

The department combines inpatient rehabilitation with several specialized outpatient teams, creating a varied and stimulating work environment. In addition to clinical responsibilities, you will have the opportunity to contribute to service development, assess referrals, and support the education and supervision of junior doctors.

Why Join This Team?
Work in a highly interdisciplinary and supportive environment
Be part of a department that values innovation, collaboration, and continuous improvement
Enjoy a varied clinical role combining inpatient and outpatient rehabilitation
Influence patient care pathways and contribute to long-term rehabilitation outcomes
No on-call duties, allowing for a sustainable work-life balance
Opportunities to engage in quality improvement and clinical development initiatives

You should have:
An EU-recognized specialist certification in Rehabilitation Medicine
At least 2–3 years of independent clinical experience after specialization
Experience in one or more of the following areas:
Acquired brain injury rehabilitation
Spinal cord injury rehabilitation
Pain rehabilitation

A proactive and team-oriented mindset
An interest in mentoring and supporting junior colleagues
Motivation to learn Swedish (language training is fully provided)

Discover Life in Central Sweden:
Imagine living in a region where forests, lakes, and outdoor adventures are never far away. Central Sweden offers a relaxed pace of life, excellent public services, safe communities, and plenty of opportunities for outdoor activities throughout the year.

Whether you enjoy hiking, skiing, cycling, kayaking, or simply spending time in nature, you'll find an outstanding quality of life for both yourself and your family. Combined with Sweden's strong healthcare system and family-friendly society, it is an ideal place to build a long-term future.

We offer:
Personal guidance from an experienced recruiter throughout the entire process
Assistance with Swedish medical authorization and administrative procedures
Relocation support for you and your family
Help finding accommodation and settling into your new community
Free Swedish language training with a private tutor online
Ongoing support before, during, and after your move to Sweden
