

Specialist in Gastroenterology, Sweden

We are seeking a specialist physician in gastroenterology for a modern central hospital in Sweden. Here you will work with advanced gastroenterological care in a well functioning clinic with a broad patient base and modern facilities.

Offer:

A free visit to see the place where you will work and live
Free Swedish language training with monthly scholarship (€1,300 for doctors)
Complete relocation support

Our support:

We find you housing
School/kindergarten registration assistance
Personal contact person for 6 months
Help with all practical matters

Requirements:

Specialist certification in Gastroenterology
Independent endoscopist skills
C1 level Swedish language (after language course)
EU medical qualification

Responsibilities:

As a specialist in gastroenterology, you will:
Assess and treat patients with gastrointestinal diseases
Perform endoscopic examinations (gastroscopy, colonoscopy)
Manage inflammatory bowel diseases and liver diseases
Participate in on-call duties in internal medicine
Work with both inpatient and outpatient care

Qualifications:

Specialist physician in gastroenterology - Independent endoscopist (gastroscopy and colonoscopy)
Ability to manage general internal medicine conditions - EU medical license
Advantage: Specialist physician in general internal medicine

The workplace:

You will work at a modern hospital with:
Extensive outpatient clinic with focus on IBD and liver diseases
Well-equipped endoscopy facilities with dedicated endoscopists
6-8 beds for gastroenterology
Access to ultrasound and elastography
Opportunity for continuous professional development
The clinic is part of a larger medical department with broad expertise and excellent collegial collaboration.

Terms:

Starting salary: From SEK 74,200/month (specialist immediately after specialist training without experience) Individual salary setting applies

Minimum 25 vacation days, paid vacation earned from day 1

Possibility of flexible working hours in most operations

Professional development and continuing education

Favourable employment terms and insurance

Work in Sweden with high quality of life, work-life balance, and proximity to nature
