Specialist in Diagnostic Neuroradiology, Sweden

Are you a neuroradiologist seeking a permanent position within a university hospital setting?

We are recruiting specialists in diagnostic neuroradiology for roles at Swedish university hospitals with advanced imaging services and academic environments.

We are currently looking for EU-certified neuroradiologists for long-term positions across Sweden.

These roles are based in hospitals with strong links to research, education, and multidisciplinary clinical collaboration.

As a diagnostic neuroradiologist, you will work with advanced imaging of the central nervous system, including brain and spine diagnostics.

The positions offer structured clinical work, access to modern imaging technology, and opportunities to participate in teaching and clinical development depending on interest.

We offer:
Ongoing support from a recruiter before, during, and after your employment
Assistance with Swedish authorization and specialist recognition, if required
Help with accommodation and relocation, including support for accompanying family members
Access to a free Swedish language course with a private tutor via Teams/ Skype

Qualifications:
EU-recognized specialist certification in radiology and sub-specialization in neuroradiology
Subspecialist competence in diagnostic neuroradiology
Good communication skills in English
Willingness to learn Swedish
