

Specialist Internal Medicine to Norway

Qualifications:

Medical degree with Specialist qualification within Internal Medicine is must
Additional research and other academic qualifications are considered an advantage
You should be familiar with working in digitalized systems
Should have worked in hospital after specialization for more than 3-5 years.

We expect that you:

Can work structured and effectively
Have good communication skills (in English)
Enthusiastic, open to challenges and a quick learner
Motivated to emigrate
Responsible and interested
Have a positive and flexible spirit
Ability and willingness to achieve results and progress
Have interest & motivation to learn new language (Norwegian)
Ability to work both interdisciplinary and independently

Our partner assists you – the medical specialist – to identify positions which could be of interest, and work with you, as your partner, throughout the entire screening, negotiation, and recruitment process.

Once we have a position for you, we also assist in application for approval as a medical specialist in Scandinavia, relocation, housing and other practical issues.

We offer language training (when needed), through an intensive online course.

Why Scandinavia?

Well-organized health care system – Satisfying working conditions – Nice working climate with colleagues – Opportunities for research activities and professional training – Good conditions for a balanced family life – Well-functioning educational system – Variety of outdoor and cultural activities
