

Specialist pathology, Sweden

A leading clinical pathology and cytology unit in central Sweden is seeking several specialist pathologists to join its team.

This laboratory is at the forefront of digital diagnostics, serving a population of approximately 287,000. The hospital's focus is to enhance patient safety and diagnostic precision by using advanced digital tools, including AI and automation. The unit provides a comprehensive range of services, including tissue and cell analysis, gynaecological cytology screenings, autopsies, and morgue management.

Requirements:

Holds an EU-recognised specialist certification in pathology and/or cytology

Strong communication skills in English and a willingness to learn Swedish

Experience in histopathology and cytology, including tissue and cell sample analysis for diagnostic purposes

Experience in conducting autopsies and grossing procedures

Active participation in clinical conferences and diagnostic decision-making

Interest in digital pathology processes, with an understanding of AI and automation developments as an advantage

We're seeking someone who is:

Team-oriented yet independent: Able to collaborate effectively within a multi-disciplinary team while working autonomously when needed

Flexible and adaptable: Open to embracing new technologies and digital diagnostics advancements

Patient-focused: Calm, attentive, and motivated to provide precise and timely results

Proactive and development-focused: Eager to contribute to continuous improvements and innovations within pathology

Why this role?

This is an excellent opportunity for pathologists to advance their careers in a progressive and digitally-focused environment. The laboratory is committed to providing high-quality patient care by utilising the latest in digital diagnostics, AI, and automation technologies. Here, you will find a supportive and collaborative workplace that values innovation and fosters professional growth. The position offers balanced working hours, with regular shifts from 08:00 to 17:00, and a rotation system for rapid diagnostic duties during the day.

What we offer:

Ongoing support from a dedicated recruiter before, during, and after your employment

Assistance with obtaining Swedish authorisation and specialist approvals, if required

Help with accommodation and travel arrangements, including support for your family, if necessary

Access to a free language course with a private tutor via Teams/Skype
