

Specialist pathology, Sweden

About the position

Our customers represent both private and public sector and offer a challenging and exciting everyday work life with varied working hours.

Qualifications:

We are looking for committed and skilled specialists in general pathology, who have an interest in or desire for specialisation in special sub-areas. We hope that you are concerned with, and want to provide, good medical services together. You are sociable, like interdisciplinary collaboration, and are clear in clinical communication. You have completed the specialisation and possibly have a few years of experience. It is an advantage if you can communicate in one of the Scandinavian languages and have work experience from the Swedish health service, but not an absolute requirement.

We offer:

Good working environment and salary according to your experience and competence.

Good professional environment with development opportunities.

Varied work within the field.

Good follow-up before, during and after the temporary placement/permanent employment.

Good retirement benefits.

If necessary, we offer help with Swedish authorisation and specialist approval.

Assistance with housing and travel.

The candidate's family will also be taken care of in the process, if necessary.

Free language school for foreign candidates.

We are looking for you who:

Are a specialist in pathology and are looking for new challenges.

Have Swedish specialist approval or medical license from an EU country.

Have a genuine interest and thrive to work and live in Scandinavia with your family.

Can communicate in one of the Scandinavian languages, both written and oral language, or are motivated to learn Swedish through our free language school.

Are positive and professionally engaged with broad professional knowledge.

Have good communication and collaboration skills.

Like varied and sometimes busy days at work.

Find it exciting to work in a team and share your knowledge and experience.

Are flexible and have good work capacity.
