The successful candidates will be joining a team of motivated Consultants that boast a wide variety of specialist interest. Alongside the Specialty Doctor team, they deliver an excellent standard of care to the local population.

Alongside their medical staffing colleagues this role will be responsible for the initial reception and management of all categories of patients attending the Emergency Department.

He or she will play a major role in the clinical management of different areas of the department, supervising the junior medical and nursing staff, and liaising closely with the department Consultants and other specialties as appropriate.

The hospitals are situated near some of the most beautiful parts of the country. There is easy access to coastal areas and countryside including the New Forest and the Purbeck Hills providing opportunity for a wide variety of leisure activities water sports and a high quality of life. There is an excellent rail and road network and two international airports situated nearby.

Development Package:

On offer is a supportive environment to aid individuals in their career progression. The Trust has a proven track record of facilitating multiple previous middle grades onto formal training programmes or to working at Consultant level in Emergency Medicine in this and other hospitals.

They are also able to offer clinical fellow posts for those candidates looking to gain experience outside the ED. This involves a 3 month secondment of the candidate's choice arranged by and paid for by the ED depending on the individual training needs.

A Fantastic opportunity in a Fantastic location – for the right candidate this is a great opportunity.
