

Anaesthesiologist, Sweden

Due to the lack of anaesthesiologists in Sweden, we are searching for European doctors to work in this field. In Sweden, anaesthesiology is a medical speciality encompassing perioperative care, anaesthetics, intensive care and pain medicine.

Anaesthesiology is one of the biggest clinical specialities in Sweden today.

The speciality includes patient care in the pre-hospital, perioperative (pre-operative risk analysis and treatment planning), intraoperative, post-operative care, care of critically ill patients (intensive care medicine), pain management (acute and chronic pain patients) as well as transport and care of critically ill patients between hospitals. The subject of anaesthesia and intensive care medicine has contact with a broad range of patients and almost all clinical hospital speciality services in the modern hospital setting. Anaesthesia and intensive care medicine is a rapidly developing medical speciality and continuous professional development for personnel is necessary.

Before you apply, please go through the list of requirements below:

- To have a medical specialisation.
- To be an EU citizen or have long-term residency in any of the EU member countries.

If you are not an EU citizen and/or your title are not from EU countries:

- Your title must be recognised in any of the EU member countries.
- You must have worked at least 3 years in any of the EU member countries after your title had been recognised.

To Apply:

Please send your CV mentioning reference SW-100 at info@phd-jobs.net
