

On behalf of one of our clients, a regional general hospital in the North of the Netherlands, We are seeking:

Cardiac Anaesthesiologist (Dutch speaking) m/f (1fte)

The cardiac department of this hospital is established about 12 years ago. It is relatively new cardiac center that has grown a lot since the start. There are open-heart surgery, percutaneous cardiac interventions and percutaneous coronary interventions instead. The Heart Center is also a center for ICD implantations and electrophysiological interventions. Within the Heart Center is a group of seven anesthesiologists working that provides anaesthesiological support of all cardiac surgery and cardiology procedures. There is a room for a hybrid combined procedures. The department is well equipped with, inter alia, modern equipment for echocardiography.

Your profile

- All-round Cardiac Anaesthesiologist fluent in Dutch language

Job profile

- The opportunity to work in a modern and very specialized cardiac centre.

Working conditions

- A pleasant and professional working climate.
- The salary per month would be between €6300 and €11182,- gross based on a 45 hours working week with on call duties.
- 30 paid holidays per year
- Holiday money
- 10 days for further education with a budget of about €5000,- per year.

Our services

- A position suitable to your needs and profile
- A good and honest contract
- Objective information on living and working life in the Netherlands
