

Clinical Director in Forensic Psychiatry, Ireland

Location: Meath

Our client, a leading private healthcare provider, is looking for a Clinical Director with Specialism in Forensic Psychiatry.

This is an exciting opportunity to work in an ever growing service with a lot of future plans.

What is on offer:

Competitive Salary

Pension

30 days annual leave

Permanent

Main Duties:

Work closely with the Clinical Director(s) of the Approved Centres, the Clinical Director of ID and MH Services and all Consultant Psychiatrists on the National MDT.

Oversee and implement measures to meet regulatory standards and compliance with the Mental Health Commission for the registration of community based mental health residences.

Provide cover for Clinical Directors & Consultant colleagues' periods of leave as necessary and in line with prospective cover arrangements as per the contract.

Main Responsibilities:

Taking clinical responsibility for patients who are residing in community based mental health residences.

Taking clinical responsibility for patients who are residing in intellectual disability centres.

Offering a psychiatric perspective to the multidisciplinary team in relation to the assessment, formulation, and treatment of individuals with complex needs and forensic risks across both ID and MH services.

Contributing to clinical governance for the services provided at both Approved Centres when covering annual leave and contribute to the development of service strategy as required.
