

Consultant Haematologist, Ireland

Location: Dublin

Two of Ireland's leading healthcare institutions dedicated to providing high-quality medical services to the communities they serve are currently seeking a Consultant Haematologist to join their team.

Job Description: As a Consultant Haematologist, you will play a crucial role in their healthcare system by providing specialised expertise in the diagnosis and treatment of haematological disorders.

Key Responsibilities:

Diagnosis and management of a wide range of haematological conditions..

Collaborating with other medical professionals to ensure a multidisciplinary approach to patient care.

Participating in the on-call rota, ensuring 24/7 coverage for emergency cases.

Teaching and mentoring junior medical staff, students, and trainees.

Participating in clinical audits and research activities to advance the field of haematology.

Qualifications and Requirements:

Active or in process Specialist Registration with the Irish Medical Council.

Experience as a Consultant Haematologist.

Strong communication and interpersonal skills.

Commitment to continuous professional development and research.

Why Join the Team:

Salary: €214113 - €257193 per annum

State-of-the-art facilities and access to cutting-edge medical technology.

Supportive work environment with opportunities for professional growth.

A chance to make a significant impact on patient care and contribute to medical research and education.
