

Consultant Paediatrician, Ireland

Cork University Hospital (CUH) is a leading tertiary referral centre and the largest hospital in Ireland. We pride ourselves on providing world-class care and advanced medical services to the community. Our Paediatric Department is a dynamic and thriving unit committed to delivering exceptional care to children and families in a supportive and innovative environment.

Position Overview:

CUH is seeking a highly skilled and motivated General Paediatric Consultant to join our team. The successful candidate will provide high-quality care to paediatric patients, contribute to the advancement of paediatric medicine, and play a key role in the development and implementation of departmental policies and procedures.

Key Responsibilities:

Provide comprehensive paediatric care
Conduct and interpret diagnostic tests and evaluations.
Collaborate with multidisciplinary teams to deliver integrated care.
Supervise and mentor junior medical staff and paediatric trainees.
Participate in clinical audits, quality improvement initiatives, and research activities.
Engage in teaching and educational activities for medical students, trainees, and colleagues.
Contribute to the development of paediatric protocols and guidelines.

Qualifications and Experience:

Specialist Registration with the IMC
Relevant specialist training and certification in Paediatrics.
Extensive experience in general paediatrics

Salary: €222215 - €266925 p/a
