

Consultant Trauma Surgeon, Ireland

Location: Dublin

Salary: €224437 - €269594 per annum

Are you an experienced and committed trauma surgeon seeking to advance your career in one of Dublin's leading hospitals?

We are looking for a skilled and compassionate Consultant Trauma Surgeon to join a dynamic and well-established team dedicated to providing exceptional care. This role offers the opportunity to work in a state-of-the-art facility, manage complex trauma cases, and make a meaningful impact on patients' lives.

About the Role:

As a Consultant Trauma Surgeon, you will be a cornerstone of the hospital's trauma and surgical care services. You'll lead a multidisciplinary team, deliver top-tier patient care, and contribute to the hospital's reputation for excellence in healthcare.

This is an exciting opportunity for a seasoned professional to take on a challenging and rewarding position in a fast-paced and supportive environment.

Key Responsibilities:

Perform a comprehensive range of trauma surgeries, from emergency interventions to elective procedures.

Collaborate with multidisciplinary teams, including anaesthetists, radiologists, and critical care specialists, to ensure holistic patient care.

Supervise and mentor junior medical staff, fostering professional growth and enhancing team performance.

Lead and participate in clinical audits to maintain high standards of care and identify areas for improvement.

Engage in ongoing research and contribute to academic activities, including teaching and training medical students and junior doctors.

Qualifications & Experience:

To be successful in this role, you will need:

Full registration with the Irish Medical Council (IMC).

A Fellowship or equivalent qualification in Trauma Surgery or Critical Care.

A strong track record of managing complex trauma cases with precision and care.

Outstanding leadership, communication, and interpersonal skills to effectively guide teams and interact with patients.

A commitment to continued professional development and contributions to medical research.
