Dermatologist for outpatient clinic, Limburg, Belgium

Our client has 13 different outpatient clinics in Belgian Limburg. These outpatient clinics stand for qualitative, accessible and affordable (insured) care. They are modern and tastefully decorated and all have a clear and recognisable signature. Patients can come here for a large number of medical specialists, including dermatology. The medical specialists all work independently and are given the opportunity to use the waiting areas and consultation rooms. They pay a small percentage for this.

What are you going to do?
The dermatologists mainly work with classical dermatology, they use the government set (insured care) rates. Aesthetic dermatology is possible in consultation with the management of the outpatient clinics, but this will not be the core business.

This is you:
All-round dermatologist.
Entrepreneur.

Reasons for choosing this job:
Pleasant working atmosphere in a well-functioning team
Income up to € 10,000 Gross per month (with a good running practice)
Flexible working hours
Starting your private practice without all the bureaucratic hassle.
