

Medical doctor in Occupational Medicine, the Netherlands

Our client is a young and innovative occupational health service that positions itself as a partner for organisations seeking effective support in the implementation of occupational health and absenteeism management. As a fully certified occupational health service, they have everything at their disposal to resolve and prevent sickness and disability.

What will you be doing?

Your activities will be diverse and include preventive measures, sickness absence management (Sickness Benefits Act, Return to Work Scheme, and wage continuation), health and disability claim assessment, and advice to organisations, prevention officers, and works council members.

You will be part of a multidisciplinary team with a pleasant work and learning environment, where close collaboration is natural.

This is you:

You have completed your medical studies

You are willing to get a BIG registration (we help you with that)

You have a broad basic knowledge, which you would like to apply in a business environment

You are a starter or have a few years of work experience as a doctor

You would like to work at the intersection of work and health

You have excellent verbal and written communication skills

You are able to listen well

You are able to get your advice acted upon

You are willing to learn Dutch up to the B2+ level (via our Language academy)

Reasons for choosing this job:

Starting salary of €4,500 gross per month

30% tax benefit for a period of 5 year

Employment of 40 hours per week

Opportunity to specialise as a company doctor

8% bonus for good performance and achieving targets

Company phone, laptop, and car provided

8% holiday allowance

5 weeks of paid holiday

Great work-life balance (working during office hours)

A broad and varied customer base, providing many opportunities for personal and professional development in the health and safety service sector

Candidates:

Dream to live and work in another country

Have an EU/EEA citizenship

Hold an EU/EEA medical or a specialist diploma

Master English (or French) in a full professional proficiency level

Are willing to learn Dutch through an exclusive Language Academy

Are willing to immigrate to the Netherlands or Belgium in a near future

Apply and:

Find your dream job abroad

Get guidance during the whole application process

Learn Dutch through a method focused on language learning for high skilled healthcare professionals

Have certainty of a worry-free process

Get help finding your future home

All documents and bureaucratic formalities such as diploma recognition, banking, insurance, registrations, etc., will be taken care of
