

Radiologist to Denmark

Right now, we have open vacancies for radiologists with different profiles in university and municipality hospitals in various regions of Denmark.

The clinics are looking for radiologists with experience in conventional radiology, ultrasound, CT and MRI, intervention radiology or mammography etc.

The hospitals are very well equipped with state of art technology in the field of radiology.

Depending on your experience you will have the possibility of teaching and training younger doctors and residents.

You will have the opportunity to develop and get specialised in your area of interest. The doctor is expected to have an active role in the department's medical development.

The hospitals offer permanent contracts. Before starting the employment you and your family will benefit from a free intensive language course to learn Danish.

We offer:

Permanent contract after three-months of trial period

Attractive salary. Duties, if there will be, will be paid apart

Training courses within working hours

Help to find: Apartment, school and kindergarten

Invitation to study tour to Denmark after a first interview, to learn more about the region and the work environment

Assistance with removal and relocation costs

Intensive Danish course, also for the family

Remuneration during the Danish course of €700 monthly net, a supplement for children of €70 monthly net, free apartment and travel costs for the family.

A great opportunity to grow professionally

Good and deeply committed colleagues with different professional backgrounds

Working in an informal work environment

Good working conditions

Requirements:

Specialist title in radiology recognised in the EU

Availability to complete the Danish course (B2 Level)

Motivation for living and working in Denmark
