

Radiologist for a diagnostic centre, Lommel, Belgium

Do you truly believe that looking inside the human body goes far beyond examinations? For a diagnostics centre located in a beautiful village in Belgium, which is only 35 KM to Eindhoven and 72KM to Antwerp, with an excellent working environment, that gives priority to the patient and has about 45 specialists in different areas of expertise, such as dermatology, cardiology and of course radiology, we are looking for a new radiologist, that will be working as the main doctor in a team with 2 other fellow colleagues.

You are a person who likes to understand problems and solve them in the best possible way, can work independently and in a team, is always looking for new technologies in the field of radiology and is not afraid to take initiatives, also likes some adventure and is ready to move to Belgium. If you identify with these points and are a general radiologist, this position is for you.

Must have:

hands-on experience with classic X-ray diagnoses, diverse Ultrasound (MSK, abdomen, Neck, and vessels), and soon with extra 2 new machines, mammography (without 3D Tomosynthesis) Mammography Screening (Mandatory Exam), and DEXA. There is no MIR or CT at this moment, but knowledge of these procedures is welcome.

Important points for the candidate:

Master English in a full professional proficiency level

Speaks or is willing to learn Dutch through an exclusive Language Academy

Ready to immigrate to Belgium in a near future and live in a beautiful small city close to the Dutch border

Reasons for choosing this job:

All doctors that work in this diagnostic centre are self-employed and each doctor is open to choosing their own working hours, of course, this has to be agreed between the team, the full-time is based on a scale of 10 half working days a week.

Your income can be up to €200,000 gross per year, depending on experience and amount of working hour

Lower tax rate as a self-employed doctor

Holiday days to be determined yourself
