

Radiologist, Norway

We are looking for a motivated radiologist who wants to move and work in Norway. The position is at a hospital located in a small and charming town, approx. 1.5 hour from Oslo. Here you will find a mixture of pedestrian streets and monumental buildings, and there is great outdoor experiences in the area. The city boasts a rich cultural life with its own theatre stage, several well-known jazz musicians and exhibition spaces for contemporary art.

Expected tasks:

Reading and describing MRI, CT, Ultrasound and conventional x-rays
Biopsy and intervention
Interdisciplinary meetings and cooperation
Training and guidance of resident doctors

Qualifications:

European authorisation as a medical professional
European certification as a radiologist
Good overall knowledge and expertise in the radiological field
You need to be able to communicate in one of the Scandinavian languages before you start, if you do not already know any of these, a language course will be offered – free of charge

Personal qualities:

Passionate and dedicated about radiology
Easygoing and like to work in teams as well as individually
Good communication skills
High work capacity

We can offer:

A good and friendly working environment
A department where quality and development are always in focus
Medical equipment of very high standards
Assistance in acquiring a place to live, kindergarten or schooling etc
Excellent conditions regarding loan, pension and insurance
