

Specialist Doctor Clinical Chemistry, Sweden

For a very dynamic and driven University Hospital with focus on the competence development and wellbeing amongst the employees, we are looking for a consultant doctor within Clinical Chemistry. You will have a possibility to work within an international environment together with well-known and renowned specialists with a clear goal.

The clinic has a significant educational assignment and also welcomes interest within research where interesting projects are ongoing or could be activated, as well as the possibility to help with financing of research. The work being done is state of the art with high tech equipment. Further working conditions in Sweden are very generous so that you are able to combine an interesting career with family life and a rich spare time.

We as a partner, will support you in all the practical details regarding relocation for you and your family, administration of your licenses, finding housing and coordinating language courses. As a doctor in Sweden, you will enjoy the possibility of combining a rich spare time with clinical and professional development – and enjoy good material standards.

Please contact us unconditionally in order to have some more information about your opportunities! Your contact with us will of course be confidential!
