

## **Specialist Doctor Radiology, Finland**

*We have during more than 10 years had the pleasure to work with a smaller hospital in a fantastic archipelago scenerie that are working in an autonomous healthcare system that during the years are being more and more uniq – for both you and also for the patients.  
The clinic is located at a smaller emergency hospital that covers a very limited area but still have to provide a wide range within diagnostics. The clinic are going to introduce a new MR-technology and are therefore in need to strenghten the team with a competent specialist.*

**Type of employment: permanent**

**Working hours: full time**

### **The work involves:**

Working within the broad Radiology with focus on MR

An on call schedule that still allows a great freedom and possibility to be off work

Participating in the further development of the clinic within as well quality as in routines and technology

Tutor younger colleagues and continue the major education assignment that exist

### **Qualifications required:**

Valid license to practise medicine in an EU country (Minimum five years)

Valid specialist approval witin the area of Radiology in an EU country

A few years of practise as a Radiology specialist

### ***On behalf of your future employer we will support you with:***

Swedish or Finnish Medical License and Swedish or Finnish Specialist License within Radiology

C1 approval in the Swedish language

Relocation and all practical issues regarding your establishing in the Swedish society including finding suitable schools for children etc!

We can warmly recommend this work place and residence for you that are relocating with family – exceptional good schools, nice living environmen and wonderful nature that awaits around the corner of the house!
