

Specialist Orthopaedic Surgery, Norway

On behalf of a hospital in Trøndelag we are looking for a skilled orthopedist for a permanent senior position.

Trøndelag in central Norway is known for urban highlights, historical sights, and coastal life mixed with world-class food experiences. The area is perfect for activities like hiking, skiing, cycling, and fishing.

The hospital has functions in most fields, including emergency departments, maternity wards, medical and surgical clinics as well as psychiatry. Central location close to public transportation, boat and airport.

The orthopaedic department at the hospital is responsible for treating fractures, injuries and diseases related to muscles and bones. The department carries out extensive prosthetic surgery and is responsible for hip and knee prosthesis patients.

Qualifications:

Specialisation in orthopaedic surgery

Medical license and specialist approval from an EU country.

Professionally updated

Good communication skills in English, and motivated to learn Norwegian

Personal characteristics:

You can handle a broad variety of patients and have respect for the individual patient and their needs

You are independent but work well in teams

You contribute to a good working environment

You thrive on new challenges and work well with stressful situations

You have a genuine interest to work and live in Norway

We can offer:

A department with a lot of specialist expertise, teamwork and committed employees

Facilitation for professional development

Good salary conditions

Favourable pension and welfare schemes

Online language course with a private tutor, free of charge

Help to obtain Norwegian authorisation

Assistance with relocation for you and your family
