Specialist radiology, Sweden

As a specialist in radiology, you will be a key member of a well-functioning multidisciplinary team, working in close collaboration with referring clinicians and other healthcare professionals. The workplace is characterized by a positive working climate, strong collaboration, and a shared commitment to high-quality, patient-centered diagnostics.

Radiology services in Sweden are continuously evolving, with an increasing focus on:

high-quality and timely diagnostic imaging
advanced digital systems and efficient workflows
close clinical collaboration and patient safety
a sustainable and supportive work environment
The department provides a broad range of diagnostic imaging services, including assessment, interpretation, and reporting across multiple modalities, supporting patient care throughout all stages of life.

A varied and professionally rewarding position

The radiology department handles both scheduled examinations and acute imaging, offering a diverse and stimulating workload. You will have the opportunity to work broadly within radiology or further develop subspecialty interests, depending on your experience and the department's needs.

The role is intellectually demanding and professionally rewarding, with strong opportunities for continuous learning, skills development, and long-term career growth.

What the workplace offers

In addition to a meaningful and stimulating role, the employer offers strong support for your professional development and well-being:

Mentorship or professional guidance from an experienced radiologist
Regular opportunities for professional development and continuing medical education
A work environment that promotes good health, including a wellness allowance

We are looking for you who:
Are a certified specialist in radiology
Value collaboration and enjoy working in multidisciplinary teams
Are committed to delivering high-quality diagnostic services

Are interested in combining a professionally fulfilling role with a high quality of life

What we offer:
Ongoing support from a recruiter before, during, and after your employment
Assistance with Swedish authorization and specialist recognition, if required
Help with accommodation and relocation, including support for accompanying family members
Access to a free Swedish language course with a private tutor via Teams/ Skype

Qualifications:
EU-recognized specialist certification in radiology
Good communication skills in English
Willingness to learn Swedish
